

THE UNIVERSITY  
of ADELAIDE

# CYBER SECURITY & AWARENESS

## “TRAIN THE TRAINER “ INVITATION

For over 140 years the University of Adelaide, Australia has been recognised as a world-class research and education institution.

The University of Adelaide is ranked 40 in the world for computer science and engineering.

### CSER

The Computer Science Education Research Group (CSER), based at the University of Adelaide in the School of Computer Science, is home to the CSER Digital Technologies MOOC program, through which we provide online professional learning in digital technologies for Australian teachers.

We are grateful for the support of our partners. Google Australia initiated this project with us, and remain genuine collaborators in our program

Our use of technology and access to information is growing and cyber security and awareness are now essential knowledge and skills for our digital world.

Understanding how our digital world works, how it is designed to protect us and how we can keep our information safe is critical for both adults and children to learn.

The Department of Education and Training are supporting our expansion of this program, enabling us to take our program

to offer your school for teachers on teaching cyber security and awareness.

**Join us** to grow our next generation with digital capabilities.
